MONEY, STOCKS AND BONDS. Wheeling & Lake Erie Tumbles-Atchison

Spurts Upward-Trusts Advance. NEW YORK, Nov. 22 .- Money on call was tight, ranging from 5 to 12 per cent., the last loan being made at 8; closing offered

Prime mercantile paper 512@712 per cent. Sterling exchange quiet and steady at \$4.80% for sixty-day bills and \$4.85 for de-

The total sales of stocks to-day were 297,-317 shares, including the following: Atchison, 19,730; Delaware, Lackawanna & Western, 6,800; Denver, Texas & Fort Wath, 7,204; Louisville & Nashville, 8,380; Missouri Pacific, 4,830; Northern Pacific preferred, 16,052; Oregon Transcontinental. 5,550; Reading, 22,900; Richmond & West | ing at 887sc. Point, 3,349; St. Paul, 15,865; Union Pacific.

There was renewed interest in the trusts to-day, and the stock market was less active for the regular list, but the unlisted department showed a marked increase in the amount of business done, The temper of the speculation was alternately weak and strong within narrow limits, the general drift of prices being downward during the forencon and upward for the remainder of the day. There the day. There was a great disinclination id the active work in the market was done almost entirely by the "bears" and traders. The news of the day was unimportant, except for the announcement of some arrangement between the Rock Island and the Atchison, supposed to be similar to that between the Northwestern and Union Pacific, though the exact nature of the deal is still a matter of speculation. The "tears" made a considerable effort to get the prices of the coalers, the trusts and the thern stocks down, but the only really weak spot uncovered was Wheeling & Lake Erie, which dropped over 4 per cent. on selling orders, said to be for Boston account, and induced by a rumor of a further issue of preferred stock. The manipulation of the trusts was not confined to one side but efforts were made to lift as well as depress them, and the "bears" gave it up toward the close, when a marked upward movement took place in all of them. Lead was sold on reports that the trust would also be converted into a corporation with a reduced capital. The alliance between Rock Island and Atchison did not seem to have much effect upon Rock Island after the opening, but Atchison was strong, especially in the afternoon, and scored a material advance on a very moderate volume of business. The deal also had a rather depressing influence upon Union Pacific, but that stock fluctuated within narrow limits, and its final change is insignificant, Denver, Texas & Fort Worth pursuing the same course. The Chicago people were buyers of the Northern Pacific, Oregon, Transcontinental and Wisconsin Central, and a spurt of act-

ivity and strength in these properties turned the tide of prices at the beginning of the afternoon. There was a drop of 1 per cent. in New England also, but this was afterward recovered. Rock Island and Atchison were the only stocks showing any material change at the opening this morning, both being up large fractions, though Wheeling & Lake Erie and the market closed on a spurt of strength with most of the list but slightly changed and the gains and losses about evenly dis tributed. Wheeling & Lake Eric pre-ferred was the only important decline, los-ing 23s per cent., while Cotton Oil is up 15s, Sugar 13s and Chicago Gas 11s.

Railroad bonds were quiet, and the sales of all issues reached only \$1,221,000, which was well distributed. The market was stronger than it has been for some time. however, and many bonds show improve-ment to-night. Lake Erie & Western firsts rose 3, to 113; Shenandoah Valley firsts, receipts, 312, to 104, and Atlantic & Pacific

Government bonds were dull and steady, while State issues were neglected. Clos ing quotations were:

TRADING IN CHICAGO.

Heavy Slump in Wheat-Corn Declines Sympathy-Pork Stronger.

CHICAGO, Nov. 22.-In wheat, trading was more active, and there was considerable liquidation of long wheat. The opening was about 38@ 12c lower for December and 4c lower for May, and later it declined % le more for the former and 4c more for the latter future, closing 14c lower for December and 11sc lower for May than the closing figures on 'Change yesterday. It was claimed that the decline was partially a bucket-shop raid to force out a lot of long wheat held by their customers on small margins. In corn, the increased movement and the reaction in wheat created an easier feeling in this market, and transactions were at slightly lower prices, though no material decline was recorded. In oats there was considerable pressure to sell, but no demand of consequence except from one large local operator, who bought May every time the price declined. The near futures were slow and 'se lower. In mess pork prices ruled 5@712c lower early, but railied 10@1212c and closed steady. In lard the feeling was easier and prices ruled .0212@ .05c lower. In short-rib sides the feeling was comparatively steady and prices without material change. The leading futures ranged as follows:

Regrading of No. 2 Wheat Postponed. CHICAGO, Nov. 22.-For two days the Illinois Rathroad and Warehouse Commission have been listening to complaints of the Illinois Grain Shippers' Association against the State inspection and grading of No. 2 wheat. The fight has largely been one between the small shippers of the State and the Chicago Board of Trade; and the commission rooms have been an arena for the meeting of these two organizations. It became apparent to-day that the long-continued debate on this subject and the uncertain action of the commission was affecting the market not only in Chicago but in the East; so the board to-day, after some debate, adopted resolutions postponing any regrading of No. 2 wheat until July, 1890.

DUN & CO.'S WEEKLY REVIEW.

Slight Effect of the Brazilian Revolution Upon Commerce-Cutlook Remains Favorable. NEW YORK, Nov. 22.-R. G. Dun & Co.' weekly review of trade says: The Brazilian revolution has had surprisingly little influence in the markets as yet. Coffee is only 1se higher for the week and the new government appears to be so generally sustained that apprehension of the closing of ports or interruption of trade has almost ceased. But it is possible that the money markets were indirectly affected to some preferred was down over 1 per cent. The weakness in the latter and Denver, Texas Fort Worth and Lead Trust was the feature of the forenoon's trading, but everything strengthened in the afternoon. France \$430,000. Here money has been France \$430,000. Here money has been scarce and dear at times; tight at Philadelphia and decidedly close at Boston. While the Treasury has taken in for the week \$1,430,000 more than it has paid out, the heavy exports of domestic products give strong assurance that the money market will hardly be disturbed by demands from abroad. The marketing of crops and movement of money from this city to pay for them have produced an easier situation at Western and Southern centers, and while no change is reported at Chicago, and money is active at 7 per cent.

at Milwaukee, it is at other points reported distinctly easier, or in ample supply for legitimate business. The great industries are making steady progress. Though the sale of steel rails at \$35, reported last week, was of small quantity and to a speculator, yet the market is undeniably strong, and pig-iron and most forms of manufactured iron and steel fully maintain previous quotations. The cotton manufacture has been doing steady business, with firm prices, and, as to its prosperity, evidence is afforded by dividends averaging 9.73 per cent. yearly on thirty-three Fall River mills. The woolen goods business does not appear at Boston to be improving to any great extent, and it is now definitely settled that no advance over last year's prices will be attempted, but there has been more activity in the wool market here, at Philadelphia and Boston, sales at Boston reaching 3,000,000 pounds, though at concessions still on the transactions of magnitude. Montevideo hides have sold at the lowest price for thirty-five years, but more demand for leather is noticed at Bos-ton, and especially for wax and kip. Hard-

ware is also selling well, and lumber is in good demand. Rubber was disturbed by fears that the supply would be cut off, but with new Para at 72 cents the apprehension is disappearing.

Wheat has risen ³sc, with sales of 25,000,000 bu here, and corn only ¹sc, with sales of
5,500,000 bu. Oats rose ⁵sc, and pork products are higher. The general course of prices has been upward, however, the advance since Nov. 1 having averaged about 114 per cent. on all commodities. Bar silver has risen to 44d per ounce, in part, perhaps, because of the report that the administra-tion will propose issues of certificates against bullion at market value in any amount that may be deposited. At Chicago the dressed beef receipts are double those of last year, and of provisions more than double, while the dry goods trade still quotes satisfactory results, with payments easy in the country. The Minneapolis wheat market is very active, and the lum-ber cut is put at 275,000,000 feet; trade is satisfactory there and at St. Paul with improving collections. Business is improving at Kansas City and especially in the holiday goods. Pittsburg notes still better prices for some forms of manufactured iron, glass active and firm, and a movement of 3,000,000 bushels of coal down the river. In leather unusual activity for the season is observed, and especially in morocco and goat-skins. On the whole, the outlook re-

mains favorable. The business failures number 277, as compared with 265 last week, and 267 the week previous. For the corresponding week of last year the figures were 296.

INDIANAPOLIS MARKETS. Trade Improving, with Firm Prices in Staple Articles as a Rule.

INDIANAPOLIS, Nov. 22. Trade was more active to-day in most departments than in any preceding day of this week. A number of buyers were in, and mail orders were quite large, and with this steady and firm prices prevailed in nearly all lines. In the produce market there was a better feeling with the indications of cooler weather. Poultry is firmer, with a decrease in receipts. The local demand for eggs is still taking all arrivals. East the market is weak. Butter in good supply, but a good article can be sold quite readily. All staple groceries carry a firm tone. Sugars are in light supply, and there are no indications of an early break in the market. Coffees are in strong position, but the efforts to spring prices have failed thus

far. The provision market is more active at the range of prices of the last day or two. Millers report considerable inquiry for the better grades of flour, prices ruling firm. Fruits and vegetables are in large supply, the mild weather having admitted of shipping in here later than usual. Both Irish and sweet pototoes are weak at quotations, and the same is true of apples, unless it be choice table fruit, Grapes are about off the market. The market is glutted with celery. Game is coming in freely, but with a better demand prices are improving.

Continued light receipts has tended to stiffen prices on all cereals. Track bids to-day ruled as
